RESEARCH OVERVIEW

My research focuses on the development of robot teammates that enhance the social collaboration between members of a human-robot team. My work explores behaviors and mathematical frameworks social robots can use to shape group trust, increase inclusion, and improve team performance.

Key words: Human-robot interaction (HRI), robotics, trust, social collaboration, groups and teams

SELECTED OUTREACH

Yale Social Robotics Lab Open Houses, Yale University, New Haven CT 2015-2018 Robotics demonstrations including Nao, Keepon, and Jibo at annual lab open houses for the public, drawing approximately 100 people each time the event was held from the greater New Haven community.

Teen Science Club Presentation, Guilford Library, Guilford CT

Presented information and a robotics demonstration to a group of local teens interested in robotics.
